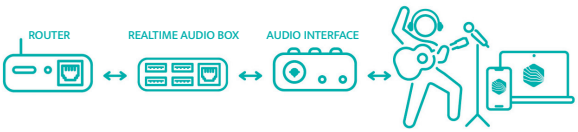
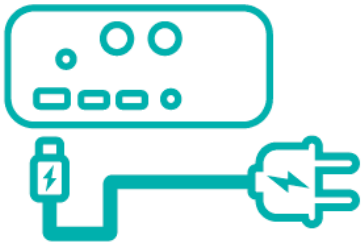
RealTime Audio



Connecting Your RealTime Audio Equipment

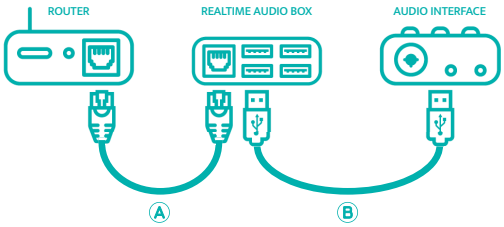
Scan for a setup video

Step 1. Connect Power Supply to RealTime Portal



Plug the USB-C power supply into your RealTime Audio Box and then into the wall.

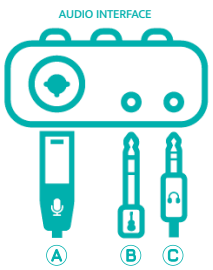
Step 2. Connect Router & Audio Interface to RealTime Portal



A Using the ethernet cable provided, connect your RealTime Portal to your internet router.

B Using a USB cable, connect your RealTime Portal to any, class compliant, USB audio interface (not provided).

Step 3. Connect Microphone, Instrument & Headphones



A Plug in your microphone.
The microphone will be used for talkback, singing, and for use with acoustic instruments.

B Plug in your instrument.

C Plug in your headphones.

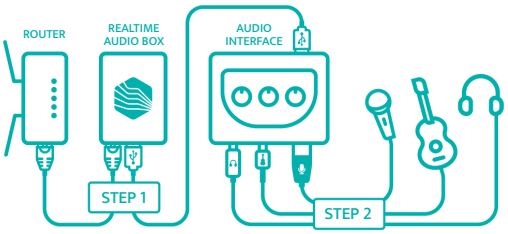
⚠ Only use headphones with two insulating bands on the connector plug (1/8" [3.5 mm] TRS).

D Turn up the volume!

⚠ Make sure your audio interface has Direct Monitor disabled.

⚠ If you have an "Input/Playback" knob make sure it's turned all the way to "Playback".

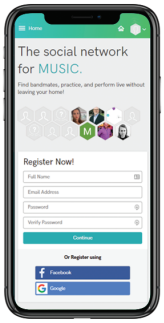
The Complete Setup



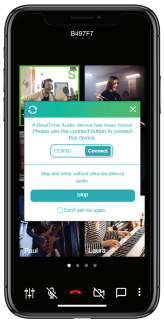
⚠ When you hear "Your RealTime Portal is ready to connect" you are ready to open the RealTime Audio app.

Step 4. Go to: www.social.realtimeaudio.com/?video=tutorial

Step 5. Register & Pair with your RealTime Portal



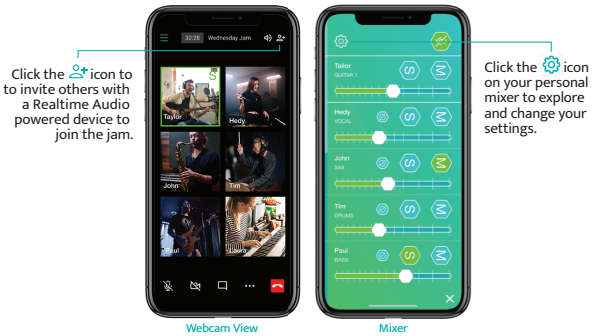
A Register your account



B Wirelessly pair the app with your RealTime Portal

⚠ If prompted, grant access to your microphone and camera.

You Are Now Connected! Lets get some friends here!



Have fun jamming!
